A Homeopathic Approach to Autism

I & II

Intra-Uterine Questions

Advanced Case Analysis

Course
Homeopathic Approach to Autism **1**

Intrauterine Questions

Dr. Luc De Schepper
M.D., Lic. Ac.

Course
Homeopathic Approach to Autism **2**

Advanced Case Analysis

Dr. Luc De Schepper
M.D., Lic. Ac.

www.LucDeSchepperLive.com

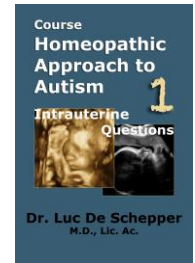

General Course Description

Course Autism in two parts: I & II

Because Dr. Luc has so much information to offer, the course “A Homeopathic Approach to Autism” is made available in two separate course parts.

Course I “Homeopathic Approach to Autism I – Intra-Uterine Questions”

offers an introduction to what autism means and how we should approach it homeopathically. Dr. Luc focuses on the emotions of the mother during the intra-uterine period and the effects on the fetus. A full live-recorded case taking and case analysis with long-term follow up teaches you case analysis and case management specific to autism.

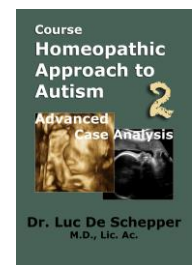

Content details Autism I

Total duration of video lectures: 6 hrs. 15 min., and if you also do all assignments and quiz questions: **total lectures and assignments: 8 hrs.**

- Parts 1 - 5: Theoretical introduction to autism (1 hr. 25 min.)
Assignments and quiz questions
- Parts 6 - 8: Intra-uterine questions (1 hr. 14 min.)
Assignments and quiz questions
- Parts 9 - 18: Live-recorded case of a boy diagnosed with autism - consultation, analysis & follow-up (1 hr. 47 min.)
Assignments and quiz questions.
- Part 20: Course summary, certificate, and final lecture.

Course II “Homeopathic Approach to Autism II & Advanced Case Analysis”

offers a deeper understanding to case analysis, not only related to autism but also for other cases of challenged children and other cases in general. The case analysis steps can be applied to other chronic cases of challenged children as well, because in homeopathy the fundamental principles are the same and we always need to individualize. Dr. Luc discusses in more detail the conscious and unconscious, the never well since (emotional trauma), the creation of the core delusion (according to Jung) and the compensations (mask).

The course Autism II includes two cases, a live-recorded case of a 15-year-old girl and a paper case discussed in great detail of a 5-year-old boy with a 5 year follow-up. Both cases illustrate Dr. Luc’s advanced case analysis and the intra-uterine emotions of the mother affecting the child.

Content details Autism II

Total duration of video lectures: 11 hrs. 31 min., and if you also do all assignments and quiz questions: **total lectures & assignments: 12,5 hrs.**

- Parts 1 - 12: Introduction lecture and a live-recorded case of a 15-year-old girl - with case analysis & follow-up.
Assignments and quiz questions.
- Parts 13 - 17: Discussion of a paper case of a young boy diagnosed with autism (1 hr. 51 min.)
Assignments and quiz questions
- Parts 18 – 34 Advanced case analysis that can be applied to all types of cases (6 hrs. 9 min.).
Assignments and quiz questions
- Part 35: Course summary, certificate, and a short final lecture Alum - Lyc.

Introduction to Course Autism I & II

The prevalence of autism

In 2013 several previously distinct diagnoses were merged into one umbrella diagnosis of *autism spectrum disorder (ASD)*. The number of children diagnosed with ASD during the last decade increased enormously. At this point in time in the USA it is called an epidemic - because it concerns 1 in 68 children.

What is autism

Autism, or autism spectrum disorder, refers to a range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication, as well as by unique strengths and differences. We now know that there is not one autism but many types, caused by different combinations of genetic and environmental influences. (Etc.)

The course

Dr. Luc De Schepper discusses in this course how a classical homeopath should approach a case with autism. In homeopathy we look at the whole case and we must treat the child who has autism, and not the disease autism itself. Special attention is given to the emotional events during pregnancy that can influence the occurrence of autism. Dr. Luc teaches how to question the mother in order to find the emotional intra-uterine trigger. Case-analysis more in general and specific to autism is discussed. An autistic child has difficulty developing his conscious and when there are difficulties the child easily retracts into his unconscious. Dr. Luc teaches in the case analysis how to get to the curative remedy. We need to find out which core delusion can explain why the child remained in his unconscious.

Both courses Autism I and Autism II include live-recorded cases diagnosed with autism with the interviews, analyses and follow-ups. The course further includes the case transcript, handouts, assignments and quiz questions.

Both course Autism I & Autism II are aimed at advanced students of homeopathy as well as medical and homeopathic professionals.

Parents of a challenged child may also be interested in viewing both courses. They may not understand all homeopathic aspects discussed in this course, nevertheless it can help them to decide on homeopathic treatment and prepare the parents for a homeopathic consultation. It can also help parents to judge if their chosen homeopathic professional is treating according to classical homeopathic values.

Dr. Luc's teachings are firmly based on the classical homeopathic teachings of Hahnemann. He offers many unique insights that will help you to use homeopathy effectively with this recent 'epidemic'.

Additionally to the theoretical lectures this course also offers example cases, which will demonstrate the theory in practice. The emphasis in course Autism I is on the intra-uterine period and in Autism II Dr. Luc expands on case analysis. After taking this course and seeing in-depth the use of the case-analysis steps that are taught and demonstrated with the cases, you will also be able to successfully apply what you have learned to all (chronic) cases in your practice, not only to cases with autism.

Interactive course

This is an interactive course. From 21 Jan 2022 onwards, after each 4 or 5 video lectures you will see a link to quiz questions and assignments. And via the course moderator you will also receive some other course documents.

After purchasing the course at any moment you may contact the course moderator for any question. You can contact the course moderator René via email:

lucdeschepperlive@gmail.com or via the contact page of the course website:
www.LucDeSchepperLive.com.

Each time when you have done a quiz, you will receive feedback from the moderator, usually within 24 hours.

Certificate

The quiz questions and assignments are only mandatory if you wish to apply for a certificate that is accepted as continued education hours (CPD hours).

After you have done the last quiz questions and assignments you will receive a certificate

Although the quiz questions and assignments are not mandatory, we strongly suggest that you do them so you will get the most out of the course.

You will receive a certificate stating the hours spent viewing and completing the quiz questions and assignments (answers will be checked & a reply given).

Autism I - 8 CPD* hours (incl. quizzes etc.)

Autism II – 12,5 CPD hours (incl. quizzes etc.)

* CPD = continuing professional development

This course has been approved by several homeopathic organizations to count for **8** and **12,5** hours: **a total of 20,5 CPD hours** (courses Autism I and Autism II combined).

Keywords of the course

Classical homeopathy, autism, challenged children, case management, case analysis, cyber delusion, intra-uterine questions, learning from real case examples.

General learning objectives of this course:

- ❖ The definition of autism in conventional medicine and how we can use this knowledge in homeopathy to judge the value of symptoms in homeopathic case-analysis.
- ❖ Awareness of which unique questions to ask additionally when treating children and/or challenged children, especially those with autism or similar.
- ❖ To gain experience with case management through real case-example exercises, especially case management of patients with autism.
- ❖ The cases will allow participants to gain experience in a particular approach to case analysis in general, using systematic steps and particular to cases with autism.

Basic knowledge needed

This course *A Homeopathic Approach to Autism I & II* expects that you are already familiar with the fundamental principles of homeopathy.

Viewing time (can be extended if needed)

You have 3 months viewing time to complete each course Autism I and Autism II. If for some good reason you do not manage to complete the course on time, write to the moderator lucdeschepperlive@gmail.com stating your full name, country & date of purchase and he will extend your viewing period free of charge.

Time needed

The video lectures are divided into *sections of around 20 minutes* each. They can be viewed from any browser, so they can also be viewed on smartphones & tablets - as often as you like during the allocated viewing period. **This makes it easy for students & professionals to find the time to take this course, as you can view the lectures at any time, wherever you happen to be.**

Interactive - With Course Moderator - You can ask Questions

At your convenience you may view the lectures only. If you prefer a more active approach, and we highly recommend this, you should do the quiz questions and assignments each time before you continue with the next series of video lectures. The course ends with a course summary, a few assignments, and if you have done all quizzes also a respective certificate.

Your course moderator will be available for any questions regarding the topics that are taught during this course *while you are following the course*. Keep in mind that questions should be related to the topics of the course, and that answers can be replied to in public to all participants. In this way all participants can learn from your questions also.

Check in - to interact with the course moderator

You may send an email to the course moderator that you have started the course, or wait till you do the first quiz.

You will be asked for your exact name so that this can be correctly mentioned on the certificate once you have finished the course.

You can communicate with the course moderator via email lucdeschepperlive@gmail.com

Certificate

Participants will only receive a certificate after completion of the course and doing all the quiz questions and assignments

If you need a certificate that is accepted for CPD (continuing professional development) hours please read below.

Continued Professional Development hours (CPD)

The guideline how this course is accepted varies per country/organization. It is best that you check with your local organization what their specific requirements are. You can also contact the course moderator for advice.

In most countries it will be sufficient to do the quiz questions & assignments which are mentioned after each few video lectures.

The course is accepted as CPD by:

- NOKH (The Netherlands)
- ACHENA (USA)
- *[NVKH: a request for accreditation to the NVKH for the new method of offering the quiz questions and assignments have been sent. More information will follow asap.]*

Q & A - How to

After the first few videos you will see a link to the first quiz questions and assignments.

You will receive immediate feedback of your score and the course moderator will give some feedback within 24 hours.

The course moderator will check the answers and if necessary advice.

Once you have answered all questions after watching the lectures, you will be eligible for the certificate stating the accredited CPD hours. The certificate will be sent in digital format once all quizzes have been completed.

A Note of Caution

Some cases of autism can be cured fully; others can perhaps be improved or alleviated partially.

Basically you approach a case of autism like any other (chronic) disease, additionally keeping in mind and using Dr. Luc's unique intra-uterine questions.

Above all the children's continued safety is important, that includes for example not stopping their seizure medications (if they are on such medications) or similar.

Only when definite and sufficient improvement is noticeable, and to stay with the example above, can medications be reduced or even stopped - but this must always be done with the consent of and under the supervision of the patient's (conventional) medical practitioner.

One very important aspect not to neglect is the timeline - your aim has to be to determine what may have triggered autism in the patient you are treating - oftentimes, possibly as often as in 95% of cases, the trigger is an intra-uterine event, but the trigger can for instance also be vaccination. These cases, as all cases of autism and any other chronic disease, should also be treated according to classical Hahnemannian homeopathic values.

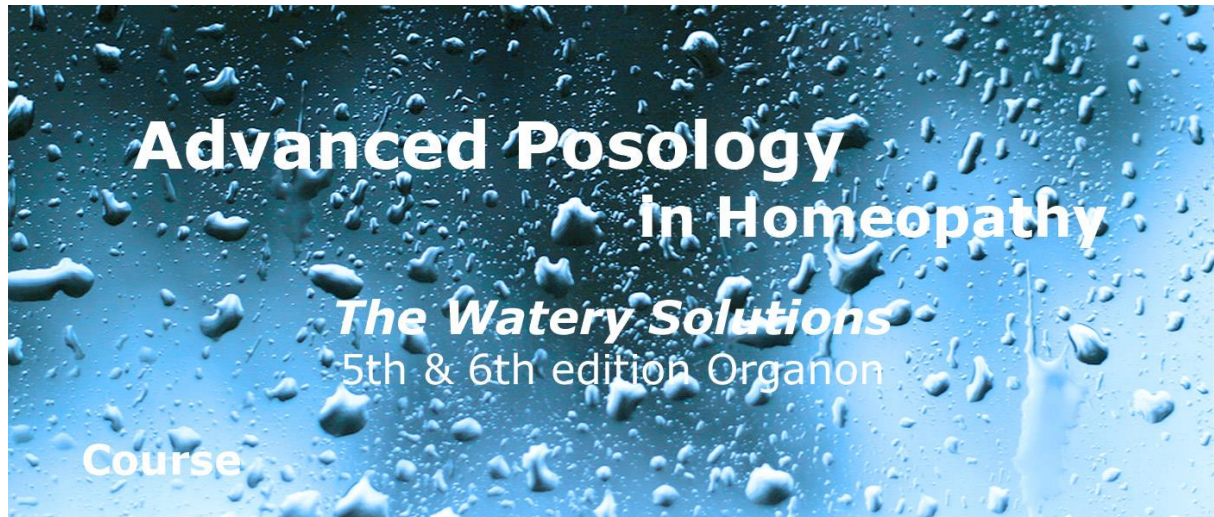

Keep in mind that a case of autism may need several years of treatment & follow-ups, even when using carefully applied 5th & 6th edition posology.

There is no correlation between this course *A Homeopathic Approach to Autism* and the CEASE therapy.

Also check out Dr. Luc's e-learning course *Advanced Posology*

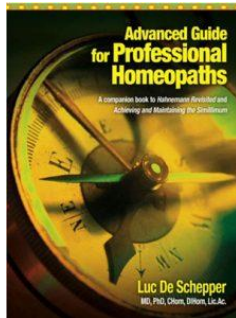

Dr. Luc has also a course available *Advanced Posology in Homeopathy*.

This is a magnificent course that will help you to greatly increase your results in practice. Worldwide, many cases do not succeed in practice because homeopaths are only familiar with Kent's dosing (30, 30, 200, 200, M, M, etc.), the "wait and watch" method, and know very little about the correct use.

Study more with Dr. Luc's excellent books

You can study more with Dr. Luc's excellent books, some of which he mentions in these lectures.

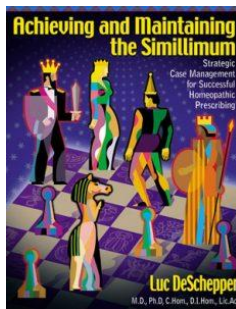

Advanced Guide for Professional Homeopaths

Hardcover: 256 pages

Publisher: Full of Life Publishing (December 1, 2008)

ISBN-10: 0942501152 / ISBN-13: 978-0942501155

The latest findings about potencies, miasms and observations of Hering are fine tuned for clinicians. Furthermore, eleven intrauterine questions and eleven questions for the homeopath to see if the clinician has the right remedy are explained in detail with clinical examples. In addition, the core delusion is defined and ways of finding it in the clinic. Jung's introductions of extrovert and introvert types, as well as the functions of consciousness, give the homeopath a solid introduction to use these characteristics to know the constitution and temperament of the patient. This is an invaluable guide for any professional in practice.

Achieving and Maintaining the Simillimum

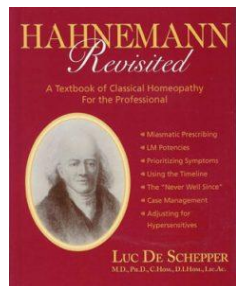

Hardcover: 370 pages

Publisher: USA (1995)

Language: English (Also available in several other languages)

ISBN-10: 0942501144 / ISBN-13: 978-0942501148

A companion book to *Hahnemann Revisited*; this unique book teaches the reader the most difficult aspect of homeopathy- how to stay on the right course in the challenging path to cure for a chronic patient.

Hahnemann Revisited

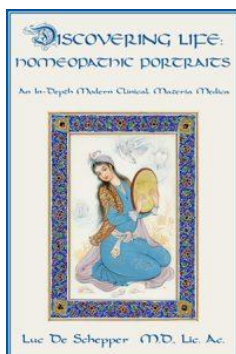

Hardcover: 600 pages

Publisher: Full of Life Publishing; 1st edition (February 1, 1999)

Language: English (Also available in several other languages)

ASIN: 094250110

A complete and comprehensive guide to the discovery, diagnosis and healing of chronic and acute conditions through homeopathy.

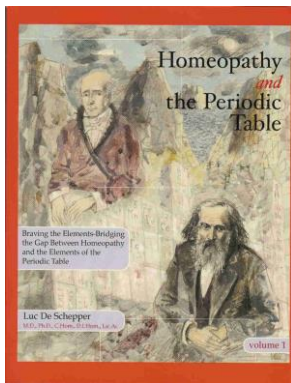

Discovering Life: Homeopathic Portraits

This book is available online from Luc's website www.dr.luc.com.

This modern Materia Medica, the result of eight years of work, is very different from existing ones. Still based on the old provings, more clarity has been brought into these portraits though depth-psychology, philosophy, and clinical examples, while also addressing the problem of translating the language of the patient into the language of the materia medica and provings.

Each portrait tells a vivid story, starting from the cyber delusion, causalities, and leading to its compensations. Additionally, from the unpublished "Gems and Pearls from Old Masters," valuable clinically proven tips are added to help the homeopath in his practice.

Homeopathy and the Periodic Table

Hardcover: 313 pages
ISBN-10: 978-0-942501-13-1

Bridging the gap between homeopathy and the elements of the periodic table.

Exploring and using only the provings from renowned and reliable sources such as Hahnemann's *Chronic Diseases* and *Materia Medica Pura*, from Hering's *Guiding Symptoms*, T.F. Allen's *Encyclopedia of Pure Materia Medica*, and Von Bonninghausen's *Materia Medica*, Dr.

Luc created a fascinating book about the relationship between homeopathy and the periodic table. A chapter on dream interpretation in homeopathy, used to clarify the proven elements in the periodic table, introduces the serious student of homeopathy to yet another way of finding the simillimum.

About the author

Dr. Luc De Schepper is a licensed physician and acupuncturist in Europe (since 1971) and the US (since 1982). He studied and practiced homeopathy extensively for many years, has written 15 textbooks of homeopathy, alternative medicine and acupuncture and has the largest school of homeopathy in the US. He spends part of his time helping the poor in South Africa, Kenya and Sri Lanka and teaches all over the world, lately bringing homeopathy to China.

Terms & conditions

By purchasing these video lectures you agree to our terms and conditions.

To avoid any inconvenience we highly encourage you to check our privacy policy and medical disclaimer.

No-refund policy

Since these lectures utilize an e-learning format and we are offering non-tangible irrevocable goods we do not issue returns/refunds/cancellations once the transaction is complete.

Medical Disclaimer

The information presented in these lectures is for informational purposes only and does not promise to cure, treat, prevent or diagnose disease or illness. These lectures are aimed at advanced students of homeopathy as well as medical and homeopathic professionals.

The creators and publishers of this website & these lectures can and will not accept any responsibility for any ill effects resulting from the use or misuse of the information presented here.

The information in these lectures and on this website do not constitute an attempt to practice medicine. If you have medical questions and or emergencies, you should always consult an officially recognized health care professional.

For some countries (e.g. in the EU) we are obliged to point out that any therapeutic claims about homeopathic remedies have not been assessed by a local government appointed scientific medical research organization.

Privacy

We ask you to respect the patients' privacy. Even though the names and other identifying characteristics of the patients featuring in these lectures have been changed as much as was possible, you agree not to copy or share any patient information in any form or way.

Certificate

The certificate is not a medical qualification, nor it is a license to practice homeopathy. Each country has its own regulations and requirements to become a certified homeopath, qualified physician or licensed practitioner of any healing art. Students seeking to become licensed practitioners must meet all state and/or national requirements and follow the licensing procedure for the state and/or country in which they intend to practice.

All students who complete this online course can get a certificate.

Please ask for your certificate by writing to the course moderator.
